Reunion

SAINT MARY'S COLLEGE

MAY 30-JUNE 2, 2024

NAME TAGS AND WRIST BANDS | ALUMNAE AND GUESTS

In lieu of individual tickets for each event, your name badge admits you to the different programs and events throughout the weekend. Therefore, it is necessary to wear your name badge at all times. All alumnae and guests attending the picnic/hospitality tent must show their wristbands for service.

SMOKING POLICY

In November 2020, the College took an important step in advocating for the health and well-being of our students, faculty, and staff by becoming 100 percent tobacco and smoke free. This means the use of tobacco or tobacco-related products (including vaping and snuff) is prohibited on any Saint Mary's property, including inside all vehicles. We are proud to be part of this national movement to address smoking and tobacco use at colleges and to create a culture where our students can reject tobacco and can be free from secondhand smoke.

**THANK YOU FOR YOUR COOPERATION
AND WELCOME TO REUNION 2024!**

Moreau Gallery
Rita Koehler '88, Owner R.E. Koehler Photographics
Glitch Mommy: Forty Days and Forty Nights follows the fragments of adoption disruption into a world of fairy tale where little lost beings are conjured from a difficult period, and lyrical gestures of staining and fluid mark-making bring about the discovery of fantastical landscapes that tilt the field towards a new epoch.
Using source material from the baby closet of collected items while waiting in the adoption pool and items from her own family archives, Koehler uses photographic images layered with paint, ink, and other mixed media to create a personal language of symbols and motifs constructing a new narrative of origin, mother, and matriarch.
Koehler employs Helen Hamilton's prologue, "The Modern Mother Goose: A Play in Three Acts" from 1916, as springboard and introduction to her work, Glitch Mommy: Forty Days and Forty Nights. It is here in Hamilton's Gooseland that Koehler explores the ideas of the idyllic golden age of motherhood and the transformation that happens whilst we wait.

Being told to get sleep is not enough—we also need to know what impairs our ability to sleep and what habits and strategies can help us to turn off the brain and get the right kind of sleep. Come learn specific strategies that help you get the kind of sleep you need.
